***Science, Consciousness
and Healing in the 21st Century***

SCIENCE, CONSCIOUSNESS AND HEALING IN THE 21ST CENTURY

PROGRAMME

We are delighted that the 2005 Network Annual Gathering will be hosted by the German Group of the Network, which is co-ordinated by Stephan Krall and Bernhard Harrer. The theme for the meeting will be:

Science, Consciousness and Healing in the 21st Century

The Programme will begin on Thursday evening with drinks and dinner at the beautiful Haus Altenberg, which is a Christian Retreat Centre near Cologne. Friday will be co-ordinated by our German Members, who will present new and intriguing work on science, consciousness and healing that is not always well known outside the German-speaking world. Some presentations on this day may be made in German with simultaneous translation into English.

On Saturday, Members from the whole Network will have the opportunity to present their own work, and a period will be set aside for networking, where Members can bring their own material to present informally.

On Sunday we will hold our formal Annual General Meeting, where Members have a chance to hear from the officers about our work since last year, to contribute to the evolving direction of the Network and to elect three members of the Network Board.

For those of you who have not yet attended the Network Annual Gathering, you will find it a wonderfully stimulating and sociable event where you can meet other Members in relaxed surroundings and exchange ideas.

This year, as last, we ask that all Members wishing to make presentations on the theme or on their own work submit abstracts of their proposals by **30th April** at the latest. We will then inform you in whether your proposal has been accepted as part of the programme. Please send abstracts to Stephan at smn-germany@t-online.de

Possible excursions to Cologne or other destinations will be announced later.
